They duped me into undergoing an interview at my residence, and paperwork there, as well as yet additional paperwork at their office, which they refused to allow me to fill out, directly, myself. From that paperwork, they then got and continue to get, fraudulent state funds, on my good name. Yet they deny me rides (deprive of the right to honest services).

You? If you're a qualifying Sr., and in their system, you can simply call, and they'll schedule you a ride, within the area, no problem. Me? They outright refuse.

This disparity drives home how 2-faced, they are. Their refusal to duly provide the right to honest services (rides, in this example), is selective. So much so, that even when I went over to their office in person, to schedule a ride, La Casa's OJ Santiago outright refused. Note that in the video referenced, he was outside of the LC office, in one of the LC recreation areas, clearly not working, and simply gabbing away with indolence, on his cellphone, at the time.

OJ Santiago (video):
https://ia601704.us.archive.org/12/items/oj-santiago/OJ%20Santiago.mp4 ,

Compare this refusal by OJ Santiago, to the video of a La Casa (LC) Rides van, picking up my neighbor. It was within minutes of my arrival on foot, back at my apartment, from the video shown, of OJ refusing to schedule me a ride, that LC Rides picked up my neighbor. OJ had simply lied. And clearly, with that timing, had been driving home the point, wanting to make sure that I knew, that he was getting away with his lies, about scheduling a ride.

LC Rides routinely picks up and drops off, my neighbor, who is in the same building, and who even shares a wall, with my unit. See that video, as follows.

On an occasion in which they had no business knowing where I was headed, both LC Rides busses, and Clovis Area Transit System (CATS) buses, went by my apartment complex, one after another, until I began to to record them. Again, they were driving home the point, making sure that I knew, they were getting away with selectively depriving me, while needlessly going right by my building. See those examples, as follows.

Darla Gonzales controls the job security of the LC Rides drivers. She controls the LC staff. She controls Ride scheduling, for all riders. Read a bit about her, as follows.

Darla and OJ are widely networked. They go out of their way to maintain communication with people I don't know. For example: One man rudely refused to allow a phone call. It wasn't his refusal that was the problem. It was his rudeness, about it. Then, in keeping with a communication network concealed from me, within minutes, A La Casa bus came TO THE AREA, and stopped at a nearby building, making sure I would notice. But then it made sure to FAIL TO STOP at Starbucks, where it was scheduled to stop, and, where this guy was located at the time.

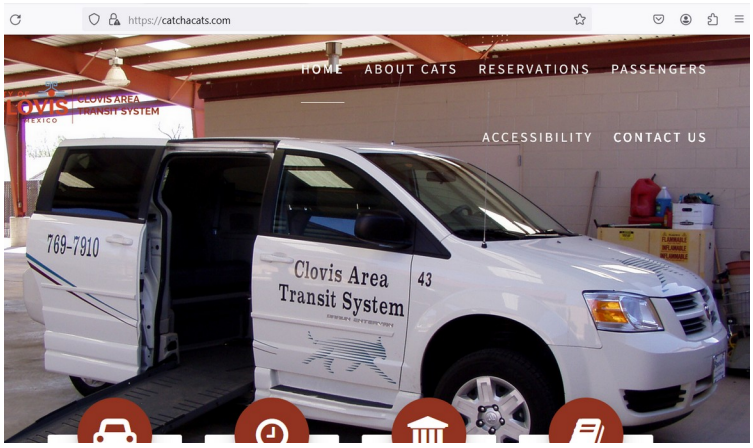
LC Rides isn't the only local transport service with one or more actors ensuring selective deprivation of the right to honest service, and committing fraud, getting state funds on this author's good name, in their respective databases. CATS is another one.

Selective. Both have 2-faced actors, hijacking control, within their respective organizations. Many other riders get service from either or both of them, with no problems. This selectiveness drives home how 2-faced, those actors are.

Hijacker Mary Collins, of CATS, has a disturbing number of court Cases. A list of some of them was provided in the document entitled, *"Distance & Travel Challenge"*.



I never took that document down, yet it suffered suspicious link rot.

In the 2 immediately referenced files, local internet service provider PlateauTel's Trish Martinez uses the same lame blame & frame game (pattern of racketeering) against her fraud target, as employed by a delivery driver, and is detailed here:

Collins sometimes has arranged for a scheduled in advance, ride, to be artificially compelled to be late, or not to occur. Doing so takes extra time, interferes with the lawful, professional activity of other CATS personnel, and costs the state in fraudulent funds. By contrast, not meddling costs nothing extra. Below is merely one example, of Mary Collin's such meddling to ensure selective deprivation of honest service. (The location has been overlaid with music.)

Collins Conceals & Lies:

Collins has even squandered CATS trips, sending a CATS bus off on a wild goose chase, to pick up or drop off absolutely no one, yet stop at a point for the sole purpose of predatory surveillance of this author. That requires Guilty Knowledge of this author's route. See –

CATS also has a staff member named Mario. He tends to answer the phone failing to announce that the caller has reached CATS, fails to identify himself, and refuses to schedule rides, in selective cases. He implies that certain callers are crazy, when there is absolutely no basis for his slander.

Once the following video refuting a local MHR, Inc., promise, had been made available to law enforcement, Daily Motion, the website provider service, quit allowing this account holder to adjust such that the relevant video played in isolation. Instead, it plays back to back with what should not be related videos, which were provided by Complainant. The MHR promise at the time, was that a Medicaid insurer representative's vehicle would follow, or at least travel with, this CATS bus. I wish to emphasize that the CATS bus driver is an honest person, genuinely trying to help, and not concealing anything. In fact, when he worked at a prior company, he helped Complainant move belongings out of a storage facility, and was entirely professional. The no show, on the part of what was supposed to be a following vehicle, was an ambush tactic, directed at Complainant. As you watch, notice the sweeps both behind, and in front of, this bus. No accompanying vehicle, anywhere.
